EDUCATION

Kongu Engineering College
Software systems MSc
CGPA: 9.22

Perundurai
2022 - 2027

EXPERIENCE

PunchBiz | Senior App Developer

Erode, TamilNadu | July 2024 - Present

As an early-stage co-owner and sole technical lead of a startup, I wore every hat developer, QA, deployment manager, and product manager end-to-end.

- Architected and built BookTheBiz from scratch using Flutter and Firebase a complete Turf Booking & Management platform live on both the Google Play Store and Apple App Store.
- Solely responsible for the full development lifecycle: feature development, testing, CI/CD, production deployments, and post-launch maintenance.
- Designed and implemented real-time slot booking, Firestore-backed availability management, and secure user authentication.
- Managed business operations as a co-owner holding equity stake and drawing a monthly stipend driving product strategy and client acquisition alongside technical delivery.

Crescent Moon Consulting Services | Senior App Developer

Erode, TamilNadu | July 2025 - October 2026

Doctor Appointment Booking App Enabled patients to book, manage, and track consultations with doctors, including real-time slot management, prescriptions, and billing.

LAMP Fellows App A collaborative platform (similar to Microsoft Teams) for teams to organize events, share documents, and communicate via integrated chat features.

CoderOne | UI/UX Designer

Delhi, India | July 2024 - September 2024

Designed and developed 3 UI/UX templates:

E-commerce Mobile App UI intuitive browsing, cart flow & checkout.

Portfolio UI clean, responsive personal/professional showcase.

Shopping Site UI user-friendly navigation & product display.

Codesoft | Web Developer

Delhi, India | March 2024 - May 2024

Completed a Web Development internship at Codsoft (2024), gaining hands-on experience in building responsive websites using HTML, CSS, JavaScript, and integrating APIs with modern frameworks.

Codsoft | Java developer

Delhi, India | June 2024 - August 2024

Worked as a Java Developer at Codsoft, where I developed an Inventory Management System using Java and MySQL, focusing on CRUD operations, data handling, and efficient UI design to streamline stock tracking and reporting.

SKILLS

Programming Languages:	C, C#, OOPS, C++, Java, Python, Dart
Libraries/Frameworks:	React, Node Js, HTML, Git, Github, Jenkins, Grafana, Kubernetes, JavaScript, Tailwind, Bootstrap 5, Docker, Flutter, CSS3, .NET
Tools / Platforms:	VS code, MIT app Inventor, Android Studio, Google IDX, Cursor, Antigravity, Kiro, Codex, Zed, Augment, Claude Code, Genspark, Emergent
Databases:	SQL, MongoDB, Firebase, CloudDB

PROJECTS / OPEN-SOURCE

BookTheBiz - Turf Booking & Management | [Link](#)

Flutter, Dart, Firebase

Developed a Turf Booking App using Flutter and Firebase, allowing users to browse turfs, check availability, and book slots. Integrated Firestore for real-time bookings, user authentication. Live at PlayStore (BookTheBiz)

JKPlus - Comprehensive Mobile App for Business | [Link](#)

Flutter, Dart, Firebase

Developed a mobile app for wholesalers and retailers to connect digitally. Wholesalers can manage products and control visibility, while retailers can browse, order, and connect directly with wholesalers.

Ease - The Waste Management App | [Link](#)

Flutter, Dart, Firebase

Developed a waste management app that encourages proper waste disposal and rewards users for recycling, using dustbins, or handing waste to collectors.

Fleece - Wool Transport Monitoring app | [Link](#)

MIT app Inventor, Firebase, CloudDB

Developed an application to connect wool producers directly with end-users, eliminating intermediaries. The app helps farmers store their wool and offers educational resources to enhance wool quality

Medicare | [Link](#)

Firebase, Flutter, React JS, TypeScript

Developed a Doctor Appointment Booking System consisting of a web application for doctors and a mobile app for patients. The platform allowed patients to register, browse available doctors, view time slots, and book appointments, while doctors could manage schedules, track consultations, generate prescriptions, and maintain patient records efficiently.

E-Commerce Java Application | [Link](#)

Java, SQL, JDBC

Developed a Java-based E-Commerce Command Line Application with core functionalities like product catalog management, cart handling, and order processing, demonstrating strong object-oriented programming and problem-solving skills.

HONORS & AWARDS

- Department Coding club treasurer in 2024
- Won 2nd prize in Science Day 2k24 in Intra-College Event
- Won 1st prize in Winty Mindz Hackathon at Vellalar College of Engineering
- Won 2nd prize in Paper Presentation at Vellalar College of Engineering

- Won 1st prize in Ideathon2k24 at Vellalar College of Engineering
- Won 2nd prize in coding contest conducted in PSG Login 2k24
- Won 1st prize in Proof of concept2k24 in Intra-College Event
- Achieved 3rd Rank in the Academic Excellence Awards for outstanding academic performance during the academic year 20242025.
- Won 2nd prize in Kec Hackathon 2k25 - A State Level Hackathon
- Won 1st prize in Ruby Day Prototype Expo
- Won 1st prize in Ideathon2k25 in Intra-College Event
- Won 1st prize in Proof of Concept 2k25 in Intra-College Event
- Achieved 2nd Rank in the Academic Excellence Awards for outstanding academic performance during the academic year 20252026.
